AND MANY OTHER PRODUCTS

VERTICAL FORM/FILL/SEAL MACHINES BY GENERAL:

Since 1954 General Packaging Equipment Co. has built reliable packaging systems for companies throughout the world. General machines are well known for long term dependability running 1, 2 or 3 shifts year after year. General Packaging Equipment Co. has been building machines with dispensing device applicators for over 45 years.

The application assemblies are designed by General's engineering staff and parts are made by General's machine shop and sheet metal shops. Bowl feeders are sourced from specialists in that field.

General has experience in working with a wide range of devices, package styles, packaging materials and package sizes.
